"The Radio Voice of The Big Country"

Dec. 15, 1975

Rolland L. Lindblade
1017 N. 90th St.
Omaha, Neb. 68114

This will acknowledge your report of having received KRBC on Sept. 17, 1975 at 12:19/12:27 AM ~~CST~~/CDT.

KRBC operates on a frequency of 1470 kc with a daytime power of 5,000 watts non-directional and a nighttime power of 1,000 watts with directional antenna. The auxiliary transmitter is a Western Electric 443A-1 1 kw.

Tower height is 300 feet, with the three tower directional array running in a South-West to North-East direction. The pattern is a modified 4 leaf clover leaf.

We use a Continental Electronics 315 B transmitter and are equipped with a diesel generator for emergency operation.

We appreciate your interest in our station.

Sincerely,

H.F. Ridgway
Chief Engineer

HFR/bc
